

Ghana

Tobacco Control Policies

Ghana became a Party to the WHO Framework Convention on Tobacco Control on February 27, 2005.

Smoke Free Places: Smoking is allowed in designated smoking areas in indoor public places and workplaces. Smoking is prohibited in public transport, except trains and commercial watercraft, which may have designated smoking areas.

Tobacco Advertising, Promotion and Sponsorship: Most forms of tobacco advertising and promotion are prohibited. Although financial or other sponsorship by the tobacco industry is not prohibited, publicity of the sponsorship of events is prohibited.

Tobacco Packaging and Labeling: On smoked tobacco product packaging, rotating pictorial health warnings must occupy 50 percent of the front and 60 percent of the back of packages. On smokeless tobacco product packaging, rotating pictorial health warnings must cover 65 percent of the front and back of packages. Misleading packaging and labeling, including terms such as "light", "ultra-light", "mild" and "low tar" and other signs, is prohibited.

Tobacco Taxation and Prices: The World Health Organization recommends raising tobacco excise taxes so that they account for at least 70 percent of retail prices. Tobacco excise taxes in Ghana are well below these recommendations.

SMOKE FREE ENVIRONMENTS COMPLETE SMOKING BAN			
Health-care facilities	No	Private offices	Uncertain
