## Tobacco Control Policies

The United Kingdom became a Party to the WHO Framework Convention on Tobacco Control on March 16, 2005.

**Smoke Free Places:** Smoking is prohibited in public transportation and virtually all indoor public places and workplaces. There are a few limited exceptions to the smoking ban. Specifically, smoking is permitted in designated rooms in adult hospices, adult care homes, psychiatric hospitals, and units; designated hotel rooms; detention or interview rooms; offshore installations; laboratory rooms; and HM Submarines and ships of the Royal Fleet Auxiliary.

**Tobacco Advertising, Promotion and Sponsorship:** Tobacco advertising and promotion is generally prohibited subject to a few exceptions, such as: at limited points of sale, direct person-to-person communications, and retailer incentive programs. Point-of-sale tobacco advertising is prohibited in large and small retail shops, although permitted inside specialist tobacconists for tobacco products other than cigarettes and roll-your-own tobacco. Display of tobacco products is prohibited in large and small retail shops, although permitted, subject to some restrictions, in specialist tobacconists, bulk tobacconists, and duty-free shops. There are some restrictions on tobacco sponsorship and the publicity of such sponsorship.

**Tobacco Packaging and Labeling:** Standardized (plain) packaging is required for all packages of cigarettes and hand rolling tobacco produced after May 20, 2016. Products produced before that date were permitted to be sold until May 20, 2017. Packaging must be Pantone 448 C - a medium brown color - made of carton or soft material, be cuboid in shape, and may not contain any elements - including text, trademark or other symbols - other than the required health warnings and specific product information in a prescribed font and size.

Rotating graphic health warnings must occupy 65 percent of the front and 65 percent of the back of all smoked tobacco product packaging. For smokeless tobacco product packaging, one text-only health warning must occupy 30 percent of the front and 30 percent of the back of the package. Misleading packaging and labeling, which could include terms such as "light" and "low tar" and other signs, is prohibited.

**Tobacco Taxation and Prices:** The World Health Organization recommends raising tobacco excise taxes so that they account for at least 70 percent of retail prices. Tobacco excise taxes in the United Kingdom are below these recommendations.

SMOKE FREE ENVIRONMENTS COMPLETE SMOKING BAN			
Health-care facilities	Yes	Private offices	Yes
Primary and secondary schools	Yes	Public transport	Yes
Universities	Yes	Restaurants	Yes
Governmental facilities	Yes	Bars and Pubs	Yes
Can subnational jurisdictions enact more stringent smoking restrictions?	No
