

**Ordinance No 150 of the
Georgian Government
06 March 2020
Tbilisi**

About approving the rules governing the threshold limits, measurement and regulation of emitted substances (nicotine, tar, choking gas) from filtered or unfiltered cigarettes (except for heated tobacco) sold in Georgia, as well as the approval of electronic cigarettes or other devices containing nicotine material/cartridge/capsule/container volume sold in Georgia and threshold nicotine levels in them and the availability and placement of medical warnings at tobacco sales points, on the boxes/blocks and packaging

Article 1

According to Georgian Law on Tobacco Control and sub-paragraph "a" of Article 2 of Georgian Law (23 Oct 2019) on Making Changes to Georgian Law on Tobacco Control:

1. The rules governing the threshold limits, measurement and regulation of emitted substances (nicotine, tar, choking gas) from filtered or unfiltered cigarettes (except for heated tobacco) sold in Georgia, as well as the approval of electronic cigarettes or other devices containing nicotine material/cartridge/capsule/container volume sold in Georgia and threshold nicotine levels in them and the availability and placement of medical warnings at tobacco sales points, on the boxes/blocks and packaging shall be approved.
2. Tobacco products to be sold in Georgia must comply with this Ordinance within the deadlines established by Georgian Law on Tobacco Control.

Article 2

According to sub-paragraph "b" of paragraph 1 of Article 25 of Organic Georgian Law on Normative Acts, the following shall be declared void:

1. Ordinance No 14 of the Georgian Government on: "the rules governing the threshold limits, measurement and regulation of emitted substances (nicotine, tar, choking gas) from filtered or unfiltered cigarettes sold in Georgia, as well as the rules for the placement of medical warnings at tobacco sales points, on the boxes/blocks and packaging", dated 15 January 2018.
2. Ordinance No 538 of the Georgian Government on: "the rules governing the threshold limits of tobacco products, their measurement and regulation the rules for the placement of medical warnings at tobacco sales points, adds, on the boxes/blocks and packaging", dated 5 September 2014.

Unofficial Translation

Article 3

The Ordinance shall become effective when it is published.
