

Federal Law No. 325-FZ of August 8, 2024, "On Amending Certain Legislative Documents of the Russian Federation"

Adopted by the State Duma on July 24, 2024

Approved by the Federation Council on August 2, 2024

Article 1

The following amendments shall be made to [Federal Law](#) No. 268-FZ of December 22, 2008, "Technical Regulations for Tobacco Products" (Code of Laws of the Russian Federation, 2008, No. 52, Art. 6223):

- 1) add the word "non-smoking" after the words "Regulations for";
- 2) [Articles 1–3](#) shall be amended to read as follows:

"Article 1. Scope of Application of This Federal Law

This Federal Law establishes mandatory requirements for application and use with regard to non-smoking tobacco products, rules for the identification of non-smoking tobacco products and forms of compliance assessment of non-smoking tobacco products with the requirements of this Federal Law, as well as requirements for information (labeling) to be affixed to the consumer packaging and/or package insert of non-smoking tobacco products.

Article 2. Basic Definitions

1. For the purposes of this Federal Law, the following basic terms are used:

- 1) ingredient—a substance (excluding tobacco leaves and other parts of tobacco) used in the manufacture of a non-smoking tobacco product and present in the finished non-smoking tobacco product, including in a modified form;
 - 2) control organization—an organization that exercises control over the production process in the manufacture of non-smoking tobacco products, the tobacco raw materials and non-tobacco materials used, as well as the quality of non-smoking tobacco products;
 - 3) coarse fraction of tobacco leaf fragments—fragments of tobacco leaves remaining after sieving through a sieve with perforations 3 millimeters in diameter;
 - 4) insert sheet—a sheet bearing consumer information, used in the sale of non-smoking tobacco products when it is not possible to print consumer information on the consumer packaging;
 - 5) name of non-smoking tobacco product - the designation of a non-smoking tobacco product assigned by the manufacturer;
 - 6) non-smoking tobacco product—a non-smoking tobacco product packaged in consumer packaging;
 - 7) non-tobacco materials – materials included in the composition of a non-smoking tobacco product (excluding tobacco raw materials and ingredients) that give it the characteristics, features, and form specified by the manufacturer, including the wrapping material for a portion of chewing tobacco;
 - 8) tobacco leaf fragments—shredded raw tobacco used in the production of chewing tobacco;
 - 9) Warning about the harm of consuming non-smoking tobacco products—information about the harmful effects of consuming non-smoking tobacco products on human health, displayed on the consumer packaging of non-smoking tobacco products in the form of colored illustrations or photographs that include text;
 - 10) sale of non-smoking tobacco products - the supply and/or retail sale of non-smoking tobacco products within the territory of the Russian Federation;
 - 11) chewing tobacco—a type of non-smoking tobacco product intended for chewing and made from compressed tobacco leaf fragments containing at least 15 percent of coarse tobacco leaf fragments, with or without the addition of other ingredients;
 - 12) snuff—a type of non-smoking tobacco product intended for sniffing and manufactured from finely ground tobacco, with or without the addition of other ingredients.
2. Other terms used in this Federal Law shall have the meanings defined in the acts constituting the law of the Eurasian Economic Union and in the legislation of the Russian Federation.

Article 3. Rules for the Identification of Non-Smoking Tobacco Products

1. The identification of non-smoking tobacco products shall be carried out by:

- 1) the manufacturer, a person authorized by the manufacturer, the importer, or the seller of non-smoking tobacco products;
- 2) a control (supervisory) authority authorized to exercise a type of federal state control (supervision) within the framework of which compliance with the requirements of this Federal Law is assessed;
- 3) other interested parties.

2. Non-smoking tobacco products are identified by their name and/or by the characteristics established by this Federal Law that characterize such products, which include:

- 1) ingredients (the presence of tobacco leaves and/or other parts of the tobacco plant);
- 2) method of consumption of non-smoking tobacco products (sucking, chewing, sniffing).

3. Non-smoking tobacco products are identified:

1) by product type—by comparing the name of the non-smoking tobacco product type contained in the information (labeling) affixed to the consumer packaging and/or the package insert and/or specified in the accompanying documents (originals or certified copies of the supply contract, shipping documentation, or a declaration of compliance for non-smoking tobacco products (hereinafter referred to as the “declaration of compliance”) with the definition of the relevant type of non-smoking tobacco product established by this Federal Law;

2) by visual inspection—by comparing the appearance of the non-smoking tobacco product with the characteristics specified in the definition of the relevant type of non-smoking tobacco product established by this Federal Law;

3) by the organoleptic method—by comparing the organoleptic characteristics of a non-smoking tobacco product with the characteristics specified in the definition of the relevant type of non-smoking tobacco product established by this Federal Law or in the standard(s) for the relevant type of non-smoking tobacco product;

4) by the instrumental (analytical) method—by testing in a testing laboratory (center) accredited within the national accreditation system (hereinafter referred to as an accredited testing laboratory (center), the compliance of the physical, and/or physicochemical, and/or other characteristics of a non-smoking tobacco product with the criteria specified in the definition of the relevant type of non-smoking tobacco product established by this Federal Law.

4. The result of the identification of non-smoking tobacco products is the classification or non-classification of the identified products as non-smoking tobacco products.”;

3) add the word “non-smoking” after the words “Requirements for” in [the title of Chapter 2](#);

GARANT

: Paragraph 4 [shall enter into force](#) on September 1, 2024.

4) [Article 4](#) shall be repealed;

5) [Articles 5–7](#) shall be amended to read as follows:

"Article 5. Requirements for Ingredients

1. In the manufacture of non-smoking tobacco products, the following substances may not be used as ingredients:

1) substances intended to increase the attractiveness of non-smoking tobacco products (food flavorings (flavorings)), as well as colorants and additives that enhance tobacco (nicotine) dependence, including nicotine salts, ammonium and ammonium derivatives, ammonia, acetaldehyde, sugars (the use of sugar to replace sugar lost during processing is permitted provided that this does not result in the emergence of a taste and/or aroma or their intensification, nor does it intensify the effect of tobacco (nicotine) dependence, toxic effects, or the carcinogenic, mutagenic, or reprotoxic properties of the product);

2) substances listed in the annex to this Federal Law.

2. The list of colorants and additives that increase tobacco (nicotine) dependence shall be approved by the Government of the Russian Federation.

Article 6. Requirement for the nicotine content in non-smoking tobacco products The nicotine content in non-smoking tobacco products shall not exceed 10 milligrams per product.

Article 7. Rules for Submitting Reports on the Composition of Non-Smoking Tobacco Products

1. Manufacturers and importers of non-smoking tobacco products sold within the territory of the Russian Federation, or the supervising organization, shall annually, no later than March 31 of the year

following the reporting calendar year, are required to submit to the federal executive authority responsible for formulating and implementing state policy and regulatory and legal oversight in the field of public health, a report on the composition of non-smoking tobacco products, containing information on the composition of non-smoking tobacco products sold by the manufacturer or importer in the Russian Federation during the reporting calendar year.

2. The form of the report on the composition of non-smoking tobacco products, the procedure for its submission and the procedure for submitting information on the results of toxicological studies regarding the ingredients shall be approved by the Government of the Russian Federation.

3. When preparing a report on the composition of non-smoking tobacco products, the mass of a non-smoking tobacco product is considered to be the mass (taking into account moisture content) of a one unit piece of a non-smoking tobacco product, 1 gram of weight-based non-smoking tobacco products. The proportion and mass of an ingredient in a non-smoking tobacco product shall be calculated in accordance with the formulation (specification) of the non-smoking tobacco product.

4. If a manufacturer or importer of a non-smoking tobacco product has conducted toxicological studies on the ingredients or such studies were conducted at their request, the manufacturer or importer of a non-smoking tobacco products is required to report the fact that toxicological studies were conducted in the report on the composition of non-smoking tobacco products and, upon request by the federal executive authority responsible for formulating and implementing state policy and regulatory oversight in the field of public health, to submit to said federal executive authority, within thirty days of receiving the request, information on the results of such studies, specifying the methods used, measurement procedures, and types of measuring instruments. The fact that toxicological studies have been conducted on ingredients and the results of such studies may not be considered a trade secret.

5. The federal executive authority responsible for formulating and implementing state policy and regulatory and legal oversight in the field of public health shall have the right, at its discretion, to disclose information contained in reports on the composition of non-smoking tobacco products.";

6) in [Article 8](#):

(a) after the word "consumers," add the word "non-smoking";

(b) [Part 1](#) shall be amended to read as follows:

"1. Information for consumers of non-smoking tobacco products (hereinafter also - information) provided for in [Article 9](#) of this Federal Law must be printed:

1) on the consumer packaging;

2) on the insert sheet when consumer packaging is used for non-smoking tobacco products on which it is impossible to affix the information.";

c) in [part 2](#), after the words "and the name," add the word "non-smoking";

d) in [part 3](#), after the word "sale," add the word "non-smoking";

e) in [part 4](#), replace the word "containers" with the word "packaging";

7) [Articles 9](#) and [10](#) shall be amended to read as follows:

"Article 9. Requirements for the Content of Information for Consumers of Non-Smoking Tobacco Products

1. The information printed on the consumer packaging and/or the package insert shall include:

1) the name of the technical regulation or information regarding mandatory confirmation of the compliance of the non-smoking tobacco product with the requirements of this Federal Law;

2) the name of the type of non-smoking tobacco product;

3) the name of the non-smoking tobacco product;

4) the name and location (address) of the manufacturer. If non-smoking tobacco products are manufactured by organizations in which control over the production process for non-smoking tobacco products, the tobacco raw materials and non-tobacco materials used, as well as the quality of non-smoking tobacco products, is exercised by a single controlling organization, the following information may be printed on the consumer packaging and (or) the package insert, in addition to the name and location (address) of the manufacturer, the following information may be included: "Manufactured under the supervision of (name of the supervising organization and its location (address))";

5) the name and location (address) of an organization registered in the Russian Federation and authorized by the manufacturer to handle consumer complaints.

the absence of such an organization, it shall be indicated that complaints from consumers should be accepted by the manufacturer of the non-smoking tobacco product in question. The specified information may be placed on the inside of the consumer packaging in a location that is legible;

6) information on the number of units (for unit-based non-smoking tobacco products) or the net weight in grams (for weight-based non-smoking tobacco products);

7) a warning about the dangers of consuming non-smoking tobacco products, placed in accordance with Article 10 of this Federal Law;

8) a product compliance mark approved by the Government of the Russian Federation;

9) the month and year of manufacture of the non-smoking tobacco products;

10) a statement that the sale of non-smoking tobacco products to minors is prohibited;

11) information on systemic toxins, carcinogenic, and mutagenic substances.

2. Additional information may be included on the consumer packaging and/or package insert at the manufacturer's discretion.

3. The information must be accurate and must not mislead consumers regarding non-smoking tobacco products and their manufacturers, as well as the characteristics of non-smoking tobacco products.

4. The information printed on the consumer packaging and/or package insert must not contain terms, descriptions, signs, symbols, or other words and designations that directly or indirectly create a false impression that a non-smoking tobacco product is less harmful to human health than other non-smoking tobacco products and tobacco products, or that a non-smoking tobacco product has the taste of a food product (food additive), including words that evoke associations with food products (food additives) in consumers of non-smoking tobacco products, nor shall it contain words sharing the same root as such words, equivalents of such words in foreign languages, or transliterations of such words from foreign languages.

5. Information printed on consumer packaging and/or the package insert must not contain images of food products, medicines, medicinal plants, or words or phrases that directly or indirectly cause consumers to associate non-smoking tobacco products with food products, medicines, or medicinal plants.

6. It is prohibited to include on consumer packaging and/or the package insert information containing statements that:

1) the use of a given non-smoking tobacco product (type of non-smoking tobacco product) reduces the risk of diseases associated with the use of non-smoking tobacco products;

2) a given non-smoking tobacco product (type of non-smoking tobacco product) is less harmful to human health than other non-smoking tobacco products and tobacco products.

7. Information regarding the presence of systemic poisons, carcinogens, and mutagens shall be printed on the consumer packaging of non-smoking tobacco products in a color that contrasts with the primary color of the consumer packaging, in the form of the following text: "Contains systemic poisons, carcinogens, and mutagens."

Article 10. Warning Regarding the Harmfulness of Non-Smoking Tobacco Products

1. A warning regarding the dangers of consuming non-smoking tobacco products shall be printed on each consumer package of non-smoking tobacco products or on each insert.

2. Images of warnings regarding the dangers of using non-smoking tobacco products shall be developed and approved by the federal executive authority responsible for formulating and implementing state policy and regulatory and legal oversight in the field of public health.

3. A warning regarding the dangers of using non-smoking tobacco products must be placed in the upper portions of the front and back main (large) sides of the consumer packaging of non-smoking tobacco products. The warning regarding the harms of using non-smoking tobacco products must occupy at least 50 percent of the area of each of the aforementioned sides of the consumer packaging.

4. When a warning about the dangers of using non-smoking tobacco products is printed on an insert sheet, such a warning must be placed at the top of each side of the insert sheet and must occupy at least 50 percent of the area of each of the specified sides.

5. The area of the insert must not be less than the area of the largest visible

surface area of the consumer packaging of non-smoking tobacco products.

6. Images of warnings about the dangers of consuming non-smoking tobacco products shall be applied to an approximately equal number of consumer packages or insert sheets of a single brand of non-smoking tobacco products released by the manufacturer into circulation during a calendar year.

7. The manufacturer, a person authorized by the manufacturer, the importer, or the seller of non-smoking tobacco products must ensure that warnings regarding the harms of consuming non-smoking tobacco products should be applied to consumer packaging or insert sheets in accordance with the warning images within a period not exceeding 12 months from the date of their approval.";

8) [Article 11](#) is hereby repealed;

9) [The title of Chapter 3](#) shall be amended to read as follows:

"

Chapter 3. Assessment of the compliance of non-smoking tobacco products with the requirements of this Federal Law and assessment of compliance with said requirements

10) [Article 12](#) shall be repealed;

11) add [Article 12.1](#) with the following text:

"Article 12.1. Ensuring the compliance of non-smoking tobacco products with the requirements of this Federal Law

1. Compliance of non-smoking tobacco products with the requirements of this Federal Law is ensured through adherence to its requirements.

2. The list of standardization documents containing rules and methods for research (testing) and measurement, including rules for the selection of models (samples) necessary for the application and enforcement of the requirements of this Federal Law and for the assessment of the compliance of non-smoking tobacco products with the requirements of this Federal Law, shall be approved by the Government of the Russian Federation.";

12) [Article 13](#) shall be repealed;

13) add [Article 13.1](#) with the following text:

"Article 13.1. Compliance assessment of non-smoking tobacco products with the requirements of this Federal Law

1. Non-smoking tobacco products subject to this Federal Law shall undergo compliance assessment with the requirements of this Federal Law prior to their release into circulation within the territory of the Russian Federation.

2. Compliance assessment of non-smoking tobacco products with the requirements of this Federal Law shall be carried out in the form of mandatory confirmation of compliance.

3. Mandatory confirmation of the compliance of non-smoking tobacco products with the requirements of this Federal Law shall be carried out in the form of a declaration of compliance based on the applicant's own evidence and evidence obtained with the participation of an accredited testing laboratory (center).

4. The applicant for the declaration of compliance of non-smoking tobacco products with the requirements of this Federal Law (hereinafter referred to as "declaration of compliance") may be a legal entity or an individual registered as a sole proprietor in the territory of the Russian Federation in accordance with the legislation of the Russian Federation, acting as a manufacturer, an authorized representative of the manufacturer, importer, or seller of non-smoking tobacco products.

5. The applicant must declare compliance using one of the following procedures:

1) Plan 3d or 6d—for mass-produced non-smoking tobacco products;

2) Plan 4d – for a batch of non-smoking tobacco products or a single non-smoking tobacco product.

6. The compliance declaration plans include the following procedures:

1) compilation and analysis of a set of documents confirming the compliance of non-smoking tobacco products with the requirements of this Federal Law;

2) implementation of production control by the manufacturer (Plan 3D or 6D);

3) conducting research (testing) and measurements of models (samples) of non-smoking tobacco products at an accredited testing laboratory (center);

4) acceptance and registration of the declaration of compliance;

5) marking of non-smoking tobacco products with a product compliance mark;

6) monitoring the stability of the quality management system (Plan 6d).

7. The applicant for compliance declaration under Plans 3d and 6d is the manufacturer or a person authorized by the manufacturer.

8. The applicant for a declaration of compliance under Plan 4d is the manufacturer, a person authorized by the manufacturer, the importer, or the seller of non-smoking tobacco products.

9. Declarations of compliance under plans 3d, 4d, or 6d shall be made in the following manner:

1) the manufacturer conducts production control and takes all necessary measures to ensure that the manufacturing process for non-smoking tobacco products is stable and ensures that such products comply with the requirements of this Federal Law (Plan 3d or 6d);

2) the applicant for registration of the declaration of compliance compiles a set of documents confirming the compliance of non-smoking tobacco products with the requirements of this Federal Law and conducts an analysis of them. In the case of a declaration of compliance under Plan 6d, the set of documents confirming the compliance of non-smoking tobacco products with the requirements of this Federal Law shall include, inter alia, a certificate of compliance of the quality management system or a copy thereof;

3) the applicant or, at the applicant's request, an accredited testing laboratory (center) shall identify the non-smoking tobacco products and select models (samples) of such products;

4) research (testing) and measurement of the selected models (samples) of non-smoking tobacco products shall be conducted at an accredited testing laboratory (center);

5) the applicant, in accordance with paragraph 5 of Article 24 of Federal Law No. 184-FZ of December 27, 2002, "On Technical Regulation," issues a declaration of compliance. The registration, suspension, renewal, termination, and invalidation of declarations of compliance shall be carried out in accordance with paragraph 8 of Article 24 of Federal Law No. 184-FZ of December 27, 2002, "On Technical Regulation";

6) the applicant shall mark non-smoking tobacco products for which a declaration of compliance has been issued with a product compliance mark in accordance with Article 27 of Federal Law No. 184-FZ of December 27, 2002, "On Technical Regulation";

7) the applicant shall prepare and maintain the declaration of compliance and the set of supporting documents that serve as the basis for the acceptance of the declaration of compliance and confirm the compliance of non-smoking tobacco products with the requirements of this Federal Law;

8) if the applicant does not have a valid certificate of compliance for the quality management system, including in the event of its suspension or termination (Plan 6d), the applicant shall decide to terminate the declaration of compliance and submit the relevant information (notification) to the national accreditation body in accordance with the procedure approved under paragraph 8 of Article 24 of Federal Law No. 184-FZ of December 27, 2002, "On Technical Regulation."

10. The set of documents confirming the compliance of non-smoking tobacco products with the requirements of this Federal Law includes:

1) technical documentation (process documentation and/or technical specifications (descriptions) for non-smoking tobacco products;

2) standards or other standardization documents in accordance with which the non-smoking tobacco products were manufactured;

3) a sample of the consumer packaging and a sample of the package insert (if available);

4) an agreement with the manufacturer, including a foreign manufacturer, providing for the compliance of the supplied non-smoking tobacco products with the requirements of this Federal Law and liability for non-compliance of such products with the specified requirements (Plan 3d or 6d if the applicant is a person authorized by the manufacturer);

5) a supply agreement (contract) and shipping documents (Plan 4d);

6) a certificate of compliance of the quality management system or a copy thereof (Plan 6d; Plans 3d and 4d (if available);

7) other documents at the applicant's discretion that served as the basis for the declaration of compliance (if available), which may include:

a) a document confirming the compliance of raw tobacco with the requirements established by the acts constituting the law of the Eurasian Economic Union and the legislation of the Russian Federation;

b) a report (reports) on the examination (testing) of tobacco raw materials conducted in accredited testing laboratories (centers) or in the manufacturer's own testing laboratory, containing the values of the characteristics of such raw materials confirming their

compliance with the requirements established by the acts constituting the law of the Eurasian Economic Union and the legislation of the Russian Federation.

11. The set of supporting documents serving as the basis for the issuance of the declaration of compliance and confirming the compliance of non-smoking tobacco products with the requirements of this Federal Law includes the documents specified in Part 10 of this Article, as well as the report (protocols) of research (testing) and measurements of models (samples) of non-smoking tobacco products conducted at an accredited testing laboratory (center) in accordance with the compliance declaration plan.

12. The manufacturer or a person authorized by the manufacturer has the right to accept a declaration of compliance for each specific non-smoking tobacco product or a single declaration of compliance for the entire range of manufactured non-smoking tobacco products of a single type.

13. An importer or seller of non-smoking tobacco products has the right to accept a declaration of compliance for each specific non-smoking tobacco product or a single declaration of compliance for the declared range of non-smoking tobacco products of a single type under a single supply agreement (contract).

14. The validity period of a declaration of compliance issued under plans 3d and 6d is no more than five years. There is no specified validity period for a declaration of compliance issued under plan 4d.

15. The effective date of the declaration of compliance is the date of registration of the declaration of compliance in the register of issued certificates of compliance and registered declarations of compliance.

16. Non-smoking tobacco products manufactured or imported during the validity period of the declaration of compliance remain in circulation during the validity period of the declaration of compliance, as well as for one year following the expiration of the declaration of compliance.

17. The applicant shall retain the declaration of compliance and the set of supporting documents for ten years from the date of its registration. The declaration of compliance and the set of supporting documents shall be stored in electronic form.";

14) Article 14 shall be repealed;

15) add Article 14.1 with the following text:

"Article 14.1. Assessment of compliance with the requirements established by this Federal Law
Assessment of compliance with the requirements established by Federal Law is carried out within the
framework of federal state sanitary and epidemiological control

(supervision) and federal state control (supervision) in the field of consumer protection.";

16) Articles 15–22 shall be repealed;

17) add the following appendix:

**"Appendix to
the Federal Law "Technical
Regulations for
Non-Smoking Tobacco Products"**

**List
of Substances Prohibited for Use as Ingredients in the Manufacture of Non-Smoking Tobacco
Products**

1. Substances:

1) agaricic acid (Acidum agaricicum);

2) birch tar oil (Oleum Betulae empyreumaticum);

3) bitter almond oil (Oleum Amygdalarum amarum) containing free or bound hydrocyanic acid;

4) sassafras oil (Oleum Sassafratis);

5) juniper tar oil (Oleum Juniperi empyreumaticum);

6) camphor oil (Oleum camphoratum);

7) camphor;

8) coumarin;

9) safflower;

10) thujone.

2. Substances, the trade of which is prohibited under international treaties within the framework of the Eurasian Economic Union.

3. Aromatic and flavoring substances made from:

- 1) the woody stem of bittersweet nightshade (*Stipites Dulcamarae*);
- 2) pullegium mint (flea mint) (*Herba Pulegii*);
- 3) fragrant liatris (*Liatris odoratissima*);
- 4) camphor tree (*Camphorae*);
- 5) the rhizome of the common polypody (*Rhizoma Polypodii*);
- 6) rhizome of the fern (*Rhizoma Filicis dulcis*);
- 7) quassia wood (*Lignum Quassiae*);
- 8) soapbark tree bark (*Cortex Quillaja*);
- 9) tansy herb (*Herba Tanacetii*);
- 10) rue herb (*Herba Ruta*);
- 11) stems, leaves, and bark of sassafras (*Stipes, Folium, Cortex Sassafratis*);
- 12) medicinal sweet clover (*Millilotus officinalis*);
- 13) tonka beans (*Semen Toncae*);
- 14) woodruff (*Asperula odorata*)."

Article 2

To amend [Article 2](#) of Federal Law No. 15-FZ of February 23, 2013, "On the Protection of Citizens' Health from the Effects of Environmental Tobacco Smoke, the Consequences of Tobacco Use, or the Use of Nicotine-Containing Products" (Code of Laws of the Russian Federation, 2013, No. 8, Art. 721; 2018, No. 31, Art. 4861; 2020, No. 31, Art. 5062; 2023, No. 18, Art. 3255) as follows:

1) [Part 1](#):

a) add [paragraph 2.1](#) with the following wording:

"2.1) naswar—a type of non-smoking tobacco product intended for chewing and made from tobacco, lime, and other ingredients;"

b) add [paragraph 10.1](#) with the following wording:

"10.1) chewing tobacco (snus) — a type of non-smoking tobacco product intended for chewing and made entirely or partially from purified tobacco dust and/or fine-cut tobacco with or without the addition of other ingredients;"

2) in [part 2](#), replace the words "tobacco products," Federal" with the words "non-smoking tobacco products", "Federal".

Article 3

The following amendments shall be made to [Federal Law](#) No. 203-FZ of June 13, 2023, "On State Regulation of the Production and Circulation of Tobacco Products, Tobacco Goods, Nicotine-Containing Products, and Raw Materials for Their Production" (Code of Laws of the Russian Federation, 2023, No. 25, Art. 4392):

1) In [Part 2 of Article 2](#), replace the words "tobacco products" with the words "non-smoking tobacco products," "Federal";

2) Add [paragraph 4.1](#) to [Part 1 of Article 6](#) with the following wording: "4.1) the production of naswar and chewing tobacco (snus);".

Article 4

1. This Federal Law shall enter into force on March 1, 2025, with the exception of provisions for which this article establishes a different effective date.

2. [Paragraph 4 of Article 1](#) of this Federal Law and [Parts 3–5](#) of this Article shall enter into force on September 1, 2024.

GARANT: [Part 3 shall enter into force](#) on September 1, 2024.

3. Tobacco products bearing special (excise) stamps for which applications for issuance were submitted before September 1, 2024, and which comply with the requirements in effect prior to the [effective date of paragraph 4 of Article 1](#) of this Federal Law, may be released into circulation.

GARANT: [Part 4 enters into force](#) on September 1, 2024.

4. Specifics of the production of special (excise) stamps ordered by manufacturers (importers) of tobacco products prior to September 1, 2024, their acquisition, marking as

tobacco products, the accounting for and destruction of damaged special (excise) stamps and special (excise) stamps that do not meet the requirements for special (excise) stamp samples, as well as the specifics of their identification, shall be carried out in accordance with [the procedure](#) established by the Government of the Russian Federation.

GARANT: Part 5 [shall enter into force](#) on September 1, 2024.

5. Tobacco products released into circulation bearing special (excise) marks, remain in circulation until they are sold to the consumer.

6. Declarations of compliance of non-smoking tobacco products with the requirements of [Federal Law No. 268-FZ of December 22, 2008 "Technical Regulations for Tobacco Products,"](#) issued prior to [the effective date](#) of this Federal Law, shall be considered valid until the expiration of the term established by such declarations, but not exceeding one year from the effective date of this Federal Law.

7. A manufacturer shall have the right to produce and import, and an importer shall have the right to import non-smoking tobacco products on the basis of the declarations specified in [Part 6](#) of this Article until the expiration of the term established by such declarations, but not exceeding one year from the date [of entry into force](#) of this Federal Law.

8. Non-smoking tobacco products manufactured or imported in accordance with [Part 7](#) of this Article shall remain in circulation until their sale to the consumer.

President of the Russian Federation

V. Putin

Moscow, Kremlin
